PROFESSIONAL EXPERIENCE

Co-Founder | Product & Operations

2026

Mishtaken Hacham

Digital platform helping Israeli housing-lottery participants navigate complex housing decisions through accessible information, calculators, guides and practical tools

- Co-founded and built a digital platform from scratch, reaching 3,000+ registered users and 30,000+ website visits through organic growth, without paid advertising
- Write feature requirements based on user and business needs, and review new features before publication
- Respond to user inquiries, explain platform features and guide users in using the platform
- Built automations within the platform and used AI tools to support product and operational workflows

Operations & Project Manager - Real Estate Development

2021 - Present

Ken Hator Engineering & Construction

- Managed 11 real estate development projects in parallel on the development side, not construction-site management, handling work plans, timelines, progress tracking and stakeholder follow-up
- Oversaw project schedules, milestones and dependencies, following up on open items to keep projects moving
- Coordinated stakeholders across functions, including engineers, architects, legal teams, contractors, real estate developers and municipalities
- Tracked project budgets, identified bottlenecks and resolved operational issues, and prepared Excel-based progress reports for senior management

MILITARY LEADERSHIP

Captain | Sayeret Nahal

- Served as a Company Commander, leading soldiers and commanders and planning and executing operational missions
- Worked as part of a pilot unit with defense companies to integrate and test technological tools under combat conditions
